## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

---In claim 3,

-line 1, after "An organic EL drive circuit", --including a plurality of current drive circuits-- has been added;

- line 2, "which generates" has been changed to --for generating each--;

-line 3, "outputs" has been changed to --outputting each--.

-line 13, after "output", --stage—has been added.

----In claim 4,

-line 2, "the" before "PWM pulse generator circuit" has been changed to --a--.

----In claim 5,

-line 6, "computer" has been changed to --comparator--.

### ***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose an organic EL drive circuit having, inter alia, "the current drive circuit includes an output stage current source, the PWM pulse has the pulse width corresponding to the light emitting time data, the output stage current source is driven by the PWM pulse and the predetermined value corresponds to a display data value of low luminance with which luminance difference on a display screen

is unclear" (claim 3). The remaining claims 4-8 are allowed by virtue of their dependencies from the independent claim. Hence, the examiner has allowed claims 3 through 9.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Correspondence***
